## Stage and Production

We have a number of lights and effects suitable for productions plays musicals. We work in to best match you the client's needs to the event you wish to create.

**Par 56 Long Polished** Used in smaller venues these 300 watt cans give stage presence and can be colored to give whatever effect is needed on stage.

**Par 64 1000Watt** Perfect to light up any stage and can be colour corrected. These lights needs to be run through a dimmer pack but are the perfect tool for school productions or band lighting requirements. Used in larger Power requirements need to be checked.

Pacific Profile: White spot lights to give sharp edge definition, can be used as a follow spot. Please contact us and we will cost the items you need for your show.

## Fairy Light Curtain

White or Black drape line in either 5m or 7 m lengths, ideal for behind the bridal table at you wedding.

**\$250 or \$350**

## Drape line

If you need an entrance tunnel or curtain sides to dress up the inside of your venue, we offer black, red, or white drape lines. These make excellent photo back drops and covers for anything you want to cover up during your show.

**\$250 to \$450**

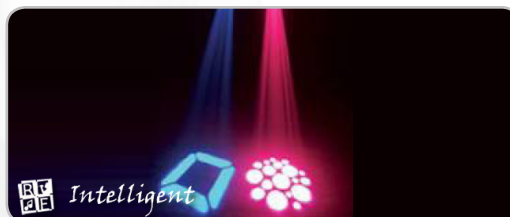

## Mirror Balls

We have a range in size from 200mm to 1m diameter. The Big boy needs suitable lifting point or truss and is an impressive mover. We can also do a 5 tier chandler arrangement with 5 mirror balls to create a spectacular center piece.

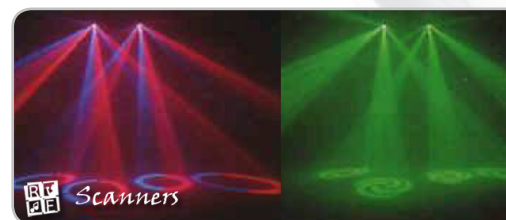

**\$200 to \$350.**

Mirror balls can reflect white dots, colored dots, color changing dots and patterns. These costs are extra to the installation and rotator quoted above.

## Intelligent

These lights can be run to sound and light or manual over ride, but are far better controlled through a DMX lighting desk.

## Scanners PR Moons

Very cool rotating pattern with really bright discharge lamp. Can be run sound to light but better as a dance floor wash.

**\$40 each**

## Scanners Winner

Basic scanner with colour and gobo wheel, neat effects but best run as a pair or in a group of 4.

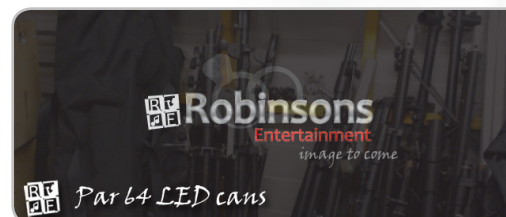

**\$35 each**

## Barrel Projection Scimitar

Usually run sound to light but can be controlled with DMX and pattern held by connecting to a control desk.

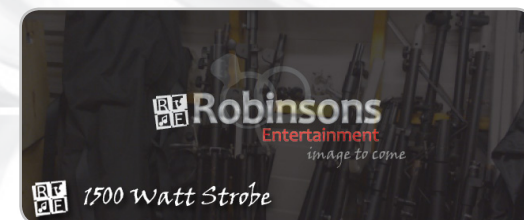

**\$30**

## Par 64 LED cans

arranged to change colour very effective stage lighting run off DMX control desk instant red blue or green change

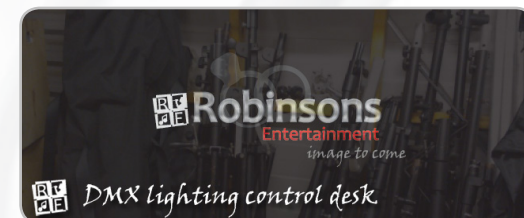

**\$20 each**

## 1500 Watt Strobe

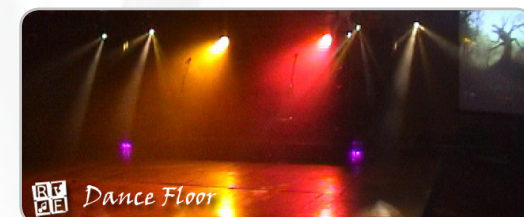

Bright flash 2 channel speed and intensity control.

**\$50**

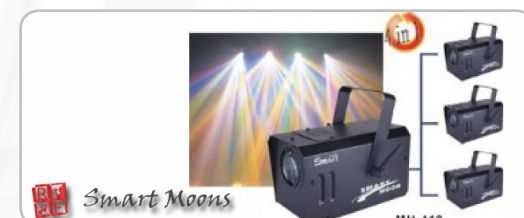

## DMX lighting control desk

**\$25 to \$35**

## Dance Floor

Manual lights that run sound to light or basic controller.

## Smart Moons

set of 4 run chase strobe to the music change colour and full any room with a multitude of colour.

**\$60**

**Par 38 Light Rail**

x4 colors that operate from a basic controller can dim chase and strobe to music or basic chase.

**\$80****Par 56 Light Rail**

x4 or x6 colors depending on stage or dance floor size and complexity, operates from a basic controller to dim chase and strobe to music or basic chase.

**\$100 - \$120****Par 64 Light Rail**

x4 or x6 colors depending upon production. These are stage or venue wash lights and are 1000Watts each, power requirements need to be checked at the venue.

**\$100 - \$150****Wall Washers:**

These lights are usually floor mounted and point up, to give walls and roof lines colour and texture. They transform a room by adding strategic colour placement or floods of colors to an area or the whole room.

**Par 64 LED cans (up light)**

red blue green or combo does not get hot can have them scrolling and changing colour. These light use little power and do not get hot

**\$20****Par 56 Long Polished.**

These can "up" light your venue to any colour you choose. 300 watts each they need to be carefully placed around a venue but have a magnificent effect.

**\$20****Halide Flood light (outside)**

400 Watts of colour to "up" light trees buildings and structures

**\$50****Pacific Profile gobo**

( static pattern) effect These lights throw a pattern onto a otherwise plain wall or ceiling to create texture and depth. The pattern (gobo) can be made in any shape by pre ordering an aluminum disc.

**\$80** (disc orders extra)

**UV Tubes:** Ultra violet light makes white Nylon glow. It is a great effect if you can have the venue dark enough.

**\$30****Bubble Machine (small)**

great for wedding and ceremony's

**\$20****Bubble Machine (large)**

Great effect if you want to fill a room with "fun" quickly.

**\$30****Smoke Machine:**

Thick smoke fast..BUT check venue as will set off fire alarms

**\$30****Haze Machine:**

New water based machine, does not set off ALL alarms but you will need to check with the venue. Light mist effect that brings lights to life.

**\$50****Stands and Truss**

We match lights to stands and truss, we have beam clamps and rigging and truss to suit almost and installation and we support this with safety clamps and electrical cable installation and fittings.

**\$20 to \$500**
